To Whom it May Concern:

PlainsCapital Bank had 61 hard drives with confidential data that needed to be destroyed. Westex allowed me to come watch the destruction of the hard drives in person. I was escorted into their secure facility by several friendly employees. They have a dedicated machine for the job, and the hard drives were thoroughly shredded at the end of the process. Westex provided a certificate of destruction at the end. I am pleased with the result and would use Westex Document Inc. again in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Bennett Ferris".
